# Ways the Scansnap is PERFECT FOR BUSINESS

Compact Size
Office and desk space can be expensive and therefore precious. Every ScanSnap is designed to occupy a small footprint while still delivering high quality scanned images.

One Touch Scanning
Maximise your efficiency with just the touch of a button. Just stack in the paperwork and press the scan button.

ScapSnap Home
This bundled software assists you to easily manage, edit and utilize various types of scanned data from documents, receipts, business cards, photos and much more.

Wi-Fi Supported
ScanSnap iX Series is equipped with built-in Wi-Fi so road warriors who are always on the move can make the best out of their time and journey.

Device-less scanning, straight to the cloud
ScanSnap Cloud* allows you to send data directly from your ScanSnap iX Series to popular cloud services, sorting scanned data into document, receipt, business card and photo.
*Currently available only in selected countries. For more information, please visit fujitsu-scansnap.com/scansnap-cloud
